### Project Overview

As ProFlow, Inc. continues to expand its operations, the need for increased storage and assembly space became paramount. To meet this demand, Munger Construction was brought on board to facilitate a significant expansion of ProFlow's existing facility.

### Project Details

Munger Construction successfully completed a 6,000 square foot addition utilizing Varco-Pruden pre-engineered steel building technology. This modern addition features a high bay storage area specifically designed to accommodate a 10-ton crane system, ensuring that ProFlow can efficiently handle its growing inventory and operational needs.
