

THE PROVEN PROCESS

ON TIME

ON BUDGET

EVERY TIME

It's not just business – it's people. We get to know our customer's needs, goals, and challenges. Attending to every detail and providing value-driven, design-build construction solutions, we transform customer visions into reality.

1

Ask, Listen, & Learn

Understand the customer's business. What are the goals the organization is trying to accomplish?

2

Bring the Project File to Life

Create a preliminary visual representation of the project file.

3

Align

Use the visual concept, alongside the client's project objectives, to fine-tune and revise the project file.

4

Build the Budget

Develop a detailed budget based on industry experience and the engagement of dedicated, loyal subcontractors.

5

Refine

Employ high-level, deep thinking and offer thoughtful solutions to fine tune the budget.

6

Proposal

Draft a proposal above and beyond industry standards with well defined, clearly presented line item cost summaries.

7

Contract

Compose a detailed, thorough, and conscientious contract agreement for the mutual benefit of the client and contractor.

8

Execute

Provide an extraordinary building experience -
On Time - On Budget - Every Time.

9

Retain

Address customer needs after project completion –
Build lifetime relationships.
