Goldfish Swim School, located at 112 Main Street in Norwalk, is dedicated to providing top-notch indoor swim classes for children. When they decided to expand their facilities, they enlisted Munger for the interior fit-out of their existing 9,000 square-foot-building.

Munger's responsibilities included the excavation and installation of a 30 x 70-foot heated pool, essential for facilitating swim lessons in a controlled environment. Additionally, Munger constructed an observation area for parents, allowing them to comfortably monitor their children's progress during classes.

Another key aspect of Munger's work was the construction of a themed changing area, designed to evoke a Caribbean ambiance. This space was crafted with attention to detail, incorporating vibrant colors and thematic décor to enhance the overall experience for swimmers.

Through Munger's expertise and attention to detail, Goldfish Swim School's expansion project was successfully completed, providing a safe and engaging environment for children to learn and enjoy swimming.

**Build The Best - Be The Best**
